### One year of tree plantation: Still alive more than 3 hundred trees

The education program conducted a survey of tree plantation after one year of planting. We found the survey that more than 3 hundred trees are still alive.

COAST education program planted more than one thousand seedlings in one year ago under the self-funding of staff. Various species of seedlings were planted. After one year around 70% of seedlings are demolished due to Heavy rain, Children and community people's unconsciousness. Different species of trees were planted besides Cucoko LC in Camp-14. We found only a Nim tree touched the roof of LC.

## LC Repair-2: Learning Centre ready for students

Renovation work of 19 learning centers damaged due to cyclone Amman has been completed. The Learning Center have been prepared to provide lessons for Rohingya students.

Super cyclone struck in different parts of Bangladesh and West Bengal, India. The Cyclone damaged homes and facilities in Rohingya camps. This also affected 53 Learning Centre among the 80 LCs led by Coast Trust. First-round We repaired 34 LCs and second-round repaired 19 LCs in July month. There was roof, shields and porches damaged.

*In addition, LC cleaning is regular work. In this reporting month, we have completed our LC cleaning. Under the supervision of PE held the cleaning work. PO and BLI help to do this smoothly.*

*It's a great challenge for the education team to maintain LC's safety and security in this lockdown time. We are maintaining this by regular communication with LCMC, Maji and parents.*

*Abdullah, the father of Shafique, a student who lives near to the Tuberose Learning Center in Camp-2, said, " The porch of our LC was destroyed due to Ampan. After the reforms, it is now as good as before. My child will be able to go to LC again if the situation of Covid-19 gets better.*
