Funding Amount of NGOs
15.67 Crore (in BDT)

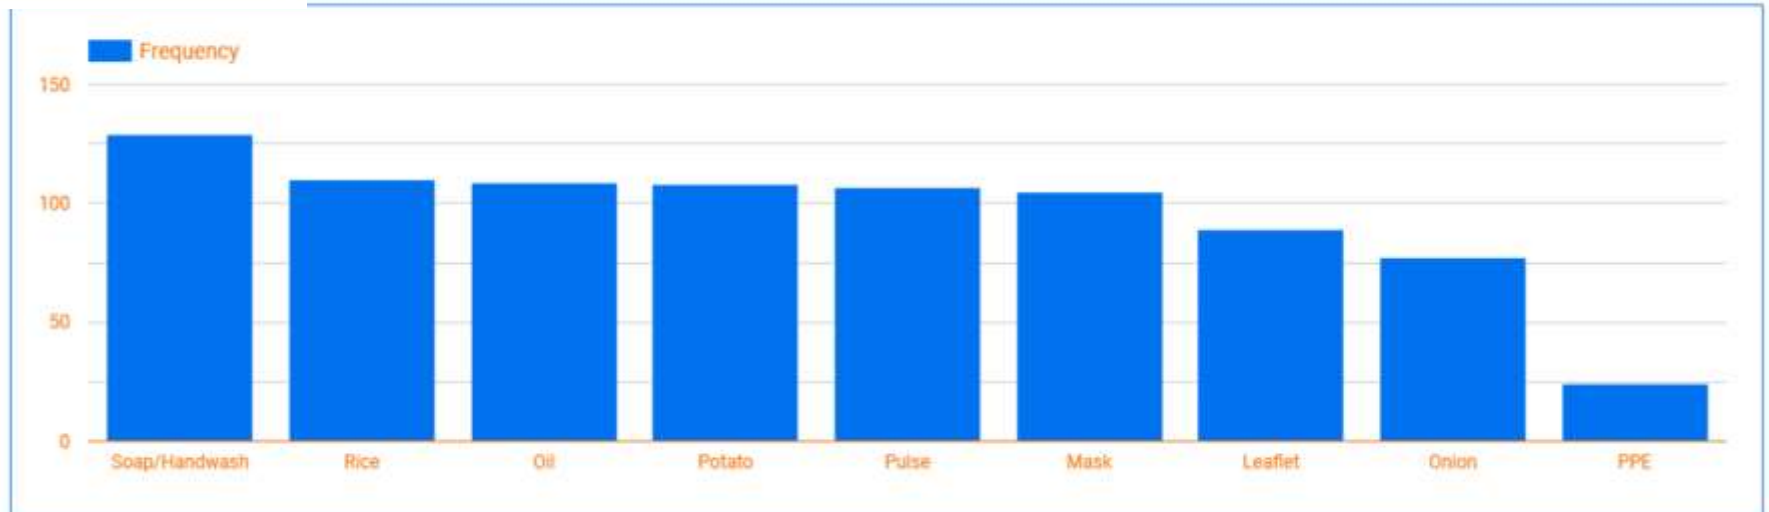

Total COVID-19 Responses Supported by Donors & NGOs (own funding)

Major area of support provided by NGOs

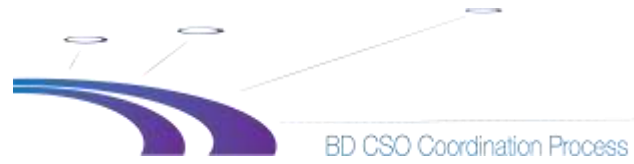

In kind support provided by NGOs

We are requesting Government of Bangladesh, Donor community, UN agencies to consider the followings:

- National and Local NGOs are on the field and working as front line service provider. Government can involve them in local coordination and service providers on behalf of Government.
- The Donor Community and UN agencies should provide more funding directly to National and Local NGOs to continue the support.
- National and local NGOs can play a big role to distribute Emergency food and medicine for disadvantaged communities as well as Livelihood support through community participation.

Finally thanks to:

Thank you
