People's call

One humanity: a vision for change

- Our vision for change must therefore be grounded in the value that unites us: our common humanity;
- People are calling for safety, dignity and an opportunity to prosper.
- People want to be safe: free from violence, oppression, persecution and fear. Without physical security, none of their other needs, rights and aspirations can be met.
- People want to to be self-reliant and to improve life for themselves and for their families. These needs, desires and aspirations do not stop in a crisis.
- These desires are not complicated or abstract. They are all very real and human.
