Only we can raise our children to be honest and ideal.

. In this month's Parent meeting of Ward No. 4 of Faraj Ganj Union, a mother said that we should raise our children to be honest and ideal. dishonest work, then why should we be involved in wrongdoing in the society. And if the children see that we parents are involved in other activities of the society, they are cheating people and raising us with the money, then this wrongful act will become legal for them. Then they will also be involved in wrongdoing and dishonesty. We see a lot of people around us who use their own children to legitimize their evil deeds. As a result of which all those children became known as terrorists of the society.

This club will be a tool for social change.

Shawon, Mentor of Ward No. 02 of West Charoumed Union, said that this club will be a tool for social change, because we want to help the helpless people of the area with our own efforts, to bring those friends who misbehave with people to a better path, by walking on the right path themselves from the area. among people by doing good work including Evtezi, prevention of child marriage. Also we will not speak bad words to anyone on the streets and will protest if we see someone speaking bad words to girls. If I speak ill of a girl on the street, others may speak ill of my sister at any time. Apart from this, we will personally deposit money and try to stand beside the helpless and sick people of the village. We will respect elders. I will read well. If the education is bad then this club will get bad name.

A mentor can guide the youth in his club to find the light.

Like every month, the monthly mentor coordination meeting was held in Lalmohan and Borhanuddin upazilas this month as well. The discussion of the mentees present in the meeting brought up the saying that "Only one mentor can show all the members of a club to seek the truth. If he is honest, idealistic and benevolent, then he can involve all the members in the good work of his

area. He can do various developmental works including cleaning the area and its educational institutions, helping the needy people, making wards free of evictions along with all his club members. But if he is associated with bad deeds, parents will not allow their children to come to his club. In that sense, a mentee must already be exemplary. Each monthly meeting with the mentor changes the Kishor-kishori behavior or is instructive. Discuss the subject. Discussion Learners will want to know what they learned from today's discussion. Before the next monthly meeting, they will prepare an action plan or action plan and write it in the form of a resolution on the next page of their signature in the register.
